## SUIT VELUX VS, FS OR VSE SKYLIGHTS TS 6.15a

### Skylight Bases Incorporate Exclusive Regent Press-Formed Flashings

Models are available to suit all VELUX FS, VS, & VSE skylights. Most sizes can be supplied incorporating Regent's exclusive press-formed Zincalume flashing systems reducing installation time and reliance on sealants.

### Raised Units for Low Pitched Roofs

Bases can be supplied incorporating a pitch adaptor (see figure below) to allow skylights to be installed onto low pitched roofs. Use is recommended for roofs under 15°. The use of skylight bases with the pitch adaptor reduces normal installation time by doing away with the usual on-site fabrication to raise the pitch of the skylight.

### Colour Matching

Skylight Bases can be supplied with a painted finish to suit standard Colorbond colours. Special colour matches are also available on request.

### Colour Match Kit

Cosmetic Colorbond cover kits are also available to fit over the glazing surround supplied on VELUX skylights.

### SELECTION CHART FOR VS OR FS SKYLIGHTS

SIZE	CORROLUX CORRUGATED IRON (CLX)	LEAD FREE TILE (ZTS)	CORRUGATED IRON (CIS)	FLASHED METAL DECK (FSDS)
