

## RIDGE MOUNTED SKYLIGHT

A custom built skylight allowing the unit to span a ridge where design requires this particular positioning. These skylights are preflashed, therefore roof type and pitch is required for manufacturing. Units can be fabricated to suite any roofing material.

## MATERIALS

Standard Ridge Mounted Skylights consist of a fabricated Zinalume base and an acrylic dome. Special bases are available (in stainless steel, aluminum, copper and galvanised) to meet individual customer requirements. Domes can also be manufactured from high impact acrylic and polycarbonate, in clear, opal or tint finishes.
